

# Innovox<sup>®</sup> 97

Calcium Oxide CaO

## New and Improved Moisture Control for Rubber

The latest ground-breaking product from Birch Chemicals has been designed to alleviate moisture problems such as porosity or surface blisters which develop during the processing of elastomeric compounds. Innovox<sup>®</sup> 97 has been formulated down to the last detail, giving it world leading performance.

## Ideal for

- ✓ EPDM Rubber compounds
- ✓ Automotive door seals and trim
- ✓ Roofing and flooring
- ✓ Conveyors
- ✓ Hoses

“Designed for unbeatable performance & consistency.”

Innovox<sup>®</sup> 97 is supplied in easy to use 1kg sachets in 25kg boxes or 20kg bags, palletted at 48 boxes or bags per pallet - so it's as easy to access the last kg as it was the first. This revolution in packaging means Innovox<sup>®</sup> 97 has an extended shelf life.
